FT Freeze Tolerant

FR Freeze Resistant

Tip burn at 14 degrees F

NO leaf burn at 12 degrees F

We research and develop only seeds from Australian Outback plants that have been proven to grow in the Arizona desert Southwest (to 125 degrees F) &/or Northern Alpine climates (frost and snow). In addition, all of our plants are grown locally. Please check our website for further plant species, growth habits and other related information.

Mates Across America Send--- 'em a six pack!

This means an assortment of six 1 gallon size plants.

We can ship almost anywhere.

Cost is \$60.00 per box plus the shipping to your zip code.
